measured
tabulated
estimated (component contribution)
curated
priced (e, f)
no value
a
cache, by accession
cache, by written structure
external pKa cascade
shipped metabolite column
CODATA ion table
composition surrogate
repeat-unit surrogate
curated structure
carrier potential
metabolites
b
placeholder formula
pseudo-metabolite
decomposition refused
no structure
placeholder structure
recorded, not admitted
group in the null space
metabolites with no value
c
cache, by accession
mixed routes
cache, by written structure
cancellation
CODATA ion table
external pKa cascade
shipped metabolite column
curated structure
repeat-unit surrogate
composition surrogate
shipped reaction column
conserved moiety
reactions
d
pseudo-metabolite
placeholder formula
more than one reason
decomposition refused
no structure
recorded, not admitted
placeholder structure
group in the null space
unpriced reactions
e
before curation (4,131)
after curation (4,131)
as built (3,847)
structures resolved (3,847)
chemically possible (3,847)
0.9100 0.9125 0.9150 0.9175 0.9200 0.9225 0.9250 0.9275
fraction of that row's denominator priced
f
reactions
all reactions
chemical only
flux-carrying
no flux possible
