
KL λ = 100
no penalty
hard mask
KL λ = 0.001
KL λ = 0.1
KL λ = 1
KL λ = 1, random graphs
a
Total is the penalty from λ = 0.1
Training total loss
b
Point loss falls alike in every arm
Training point loss
c
Distribution term: 3% of point loss
Training distribution term
d
Penalty falls 50-fold, then floors
Training penalty
none, mask: 0
e
Held-out total is the penalty too
Validation total loss
f
Held-out point loss rises after 13
Validation point loss
g
Held-out distribution term, slow fall
Validation distribution term
h
Held-out penalty floors with training
Validation penalty
none, mask: 0
